Subject: Pesticides Residues in Honey

Chris and Charlotte,

Sounds like Lauren wants us to meet as a smaller group before something is proposed to the larger group. Let me know if you are ready to have a phone conference call, and if so, what dates/times might work. Thanks!

Jeff

Subject: RE: Glyphosate Honey Risk Calculations

Hi Jeff—

We were waiting for you to loop Charlotte and Chris into your discussions about pesticides in honey in general, so please let us know if anything is happening there. We are planning to have some more internal discussions ourselves, but not until April after a Codex meeting (CCCCF) Paul and I are both involved in.

Lauren

Robin,

Just following up on the glyphosate slides. Let me know when you want to discuss options for moving forward. Thanks!
Jeff

Hi Jeff—

Thanks for sending these and for the work by HED on your end. The slides will be very helpful, and we will get back to you if we have any questions. None for now.

Regards
Lauren

Lauren,
HED revised the slides to clarify the levels at 163 ppb (Thanks for the catch Charlotte!). Let me know if you want to discuss this further.
Jeff
